

The Rough Edges

Hard Rock made in Germany

Genre: Rock / Hard Rock / Rock & Roll / Alternative Rock / Progressive Rock

Info

The Rough Edges let hard rock come to life again! Their songs are rough and edged but nevertheless ambitious and sophisticated. Now and then, The Rough Edges avail themselves of elements of different genres but basically, the band is shaped by uncompromising Rock. Powerful and catchy riffs match with a phat guitar sound, and groovy bass lines are combined with driftly drum rhythms. The bass guitar and the drums build a solid fundament which is responsible for supporting the singing guitar solos and melodic vocals.

Since 2012 The Rough Edges have played gigs. The band was formed by *Günter Kehrein*, who is characterized by powerful riffs and melodic solos, and his son *Jonny*, who beats time at the drums. In April 2016 *Philippe Nix* joined the band. With his harmonic but also rough voice he is responsible for the vocals. *Christian Raimund* joined the band in

November 2017 and since that time he is the lord of the low notes on bass. Together, the band brings back the hard rock of old times to the stages of our time!

In either case, The Rough Edges are recommended to every supporter of rock music.
